

FREE MEMORY SCREENINGS

Because memories should last forever.

Tuesday, October 8, 2024
10:00 AM - 2:00 PM

Medicare recommends people over the age of 60 to get a memory screening every year.

Why get a memory screening?

Early diagnosis of dementia allows individuals to better prepare for their future care, make treatment and end of life decisions, and establish legal and financial plans while cognitively capable.

How long does it take and when will I receive the results?

A memory screening consists of a 30-minute personal interview. You will have the results right away and discuss them with our Certified Dementia Practitioner.

Program made possible by funding from the Bergen County Division of Senior Services

Fair Lawn Senior Center
11-05 Gardiner Road
Fair Lawn, NJ 07410

**REGISTER IN PERSON
